BERGEN

Bergen is a band raised from South-West Flemish clay that ranges from Sigur Rós to Explosions in the Sky with a hint of Mogwai. Repetitive instrumental post-rock according to one, driven cinematic poetry according to the other. Bergen disguises stories as wordless songs with a strong sound that is supported live by film bites and video.

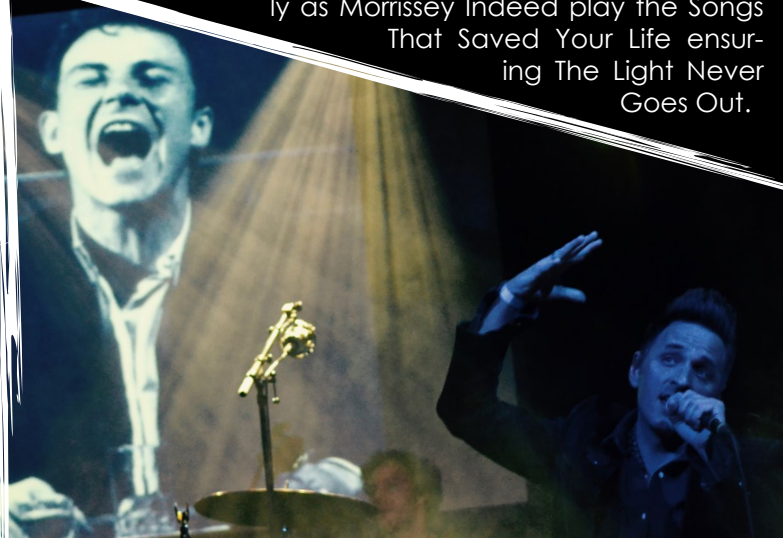

BILLBOARD

The youngsters of Billboard bring music that can be described as "riff-based rock with a hint of new wave". They are doing well on their breakthrough, as they already played at Marktrock Poperinge and provided the support act for Equal Edicts and Daan. Billboard, a name to remember!

MORRISSEY INDEED

Morrissey Indeed are a tribute band to The Smiths and Morrissey, one of the most influential bands of all time and the Real and Proper Poet Laureate. They play The Smiths and Morrissey classics powerfully, authentically, passionately from 'This Charming Man', 'Panic' and 'Bigmouth Strikes Again' to 'Suedehead'. The allure of The Smiths and Morrissey will never wane, as the excitement around the rerelease of The Queen Is Dead, the Morrissey biopic England Is Mine and the new album Low In High School shows. Morrissey-aficionado Jürgen Wendelen has been charming and convincing fans worldwide since 2005 with an accurate and engaging show, first in The Smiths Indeed and now in Morrissey Indeed. His voice, looks, and dance moves come eerily close to that of the legendary British crooner in his prime. Prepare to Oscillate Wildly as Morrissey Indeed play the Songs That Saved Your Life ensuring The Light Never Goes Out.
